

Endo Medicsはイオンストーンを利用して健康と環境にやさしい天然製品を製造する会社で
今回のCosme Tokyoには様々なイオン・ストーン製品を展示したいと思います。

特に、マイナスイオンと遠赤外線を放出する“イオンビビボール”という新しいコンセプトの
毛穴ケアマッサージボールは今後、日本市場のブルーオーシャンアイテムになると確信します。

イオンビビボールは顔の油分と老廃物、皮脂、ブラックヘッドなどの除去、にきびの治療、毛穴縮小、老化防止
などの効果がある100%天然素材で作られたスキンケアツールです。

ナノ技術で作られたイオン・ストーンという素材を持った天然マイナスイオンと遠赤外線は細胞再生および老化
を防止する硫酸化作用で生き生きしてハリのある肌を作ってくれます。

イオンビビボールは韓国特許を受けた100%天然素材の製品で、今回のCosme Tokyoに関心のある皆さんに会
たいです。

Endo Medics is a manufacturer of natural products being helpful for health and environment.

In 5th International Cosme Tokyo, we will plan to introduce a pore massage tool called 'ION VIVIBALL'
emitting Negative ion and far-infrared which is very well known for many of positive effects on our body.

ION VIVIBALL is made of 100% natural materials and effective on Removal of excessive sebum, Reducing
blackheads, Pore tightening and Anti-aging. It has high concentration of negative ion stimulating
regeneration of skin cells and brightening up uneven skin tone as well as remarkable absorbability by Nano-
porous technology.

We have patent for this product and many kinds of certificates such as IOS 9001 approved qualification. One
of the most competitive things our product has is there are no beauty products emitting over 1,000
measured value of negative ion as well as based on 100% natural materials. In terms of export, ION VIVIBALL
is categorized as industrial products not as cosmetics. Therefore it's simple and easy to prepare documents
for it indeed. Additionally Endo Medics will also exhibit other products regarding Negative ion and looking
forward to meeting good business partners in this exhibition.
